

To help someone out, I need the following information	
How long have you been keeping fish?	
Have you gotten any new ones?	Were they quarantined?
Have the fish been transported lately?	Where and how?
Were they sick?	Have your resident fish been sick recently?
How big is the system?	[L" x W" x D"] divided by 231 = US Gallons
Wooden decking around pond?	Liner or concrete, other?
The filter? Type, size, flows	
Do you have a waterfall or stream?	
Ammonia PPM	
Nitrite PPM	
Nitrate PPM	
PH reading	
Carbonate (Total) Alkalinity PPM or kH	
What is the water temperature now?	What has the temp been in the last eight weeks?
Is there any water circulation?	Please describe circulation
How much sun does the system get?	
Is there algae in the system?	Is the algae sessile or suspended?
Is there a UV on the system?	Was it turned off during any attempted treatments?
Is there Carbon in the filtration system?	How is Alkalinity supported?
When was your last water change?	How much was changed?
When was your last MAJOR (>70%) water change?	
Are there any plants in the system?	Describe
Hydrogen Sulfide test results desired if case is not clear.	
Is the pump in the water or on the side?	
Ornaments and rocks in the pond?	
What treatments have been tried?	
Fish illness or pathology description:	
Fish behavior	
Fish appetite	
What are the fish fed?	
How much are the fish fed?	
Have they been eating recently?	
Duration of illness/syndrome	Number (%) of fish affected
Sudden deaths?	Appearance before death?
Gill condition pre and post mortem?	
Microscopy available?	RECOMMENDED to 400x
Any fish with Dropsy or sunken-in eyes?	
When was the filter overhauled?	Is there debris on the bottom of the pond?
HAS there <u>been</u> debris on the bottom of the pond?	
How many fish are in the system?	http://www.koivet.com/crowding.htm
Is the water cloudy?	Clear turbidities at once!
Does the pond receive "run-off" rainwater from roof or landscape?	
What is the pond's water source?	City water: Chlorine or Chloramines? If well water: pH, ammonia and D.O. at tap?
Have you cut a fish open for necropsy?	Results?
Polyculture?	Describe:
Have you seen www.koivet.com ?	http://www.koivet.com/costia400.mpg
